### Type your product key for activation

You can find your product key on your computer or on the installation disc holder inside the Windows package. Although you are not required to enter your product key now to install, failure to enter it may result in the loss of data, information, and programs. You may be required to purchase another edition of Windows Vista. We strongly advise that you enter your product identification key now.

The product key sticker looks like this:

Product key (dashes will be added automatically):

Automatically activate Windows when I'm online

Install Windows

Select the edition of Windows that you purchased

- | Windows Version                  |
|----------------------------------|
| Windows Vista BUSINESS           |
| Windows Vista HOMEBASIC          |
| <b>Windows Vista HOMEPREMIUM</b> |
| Windows Vista ULTIMATE           |
| Windows Vista HOMEBASICN         |
| Windows Vista BUSINESSN          |
| Windows Vista STARTER            |

If you enter your product key, Windows can automatically determine which edition you purchased. To enter your product key, click the Back button to return to the previous page.

 If you choose not to enter your product key now, make sure that you select the edition of Windows that you purchased. If you select the wrong edition, you will need to purchase that edition, or you will need to reinstall the correct edition of Windows later and potentially lose files and information.

I have selected the edition of Windows that I purchased.

Install Windows

Which type of installation do you want?

### Upgrade

Keep your files, settings, and programs and upgrade Windows. Be sure to back up your files before upgrading.

### Custom (advanced)

Install a clean copy of Windows, select where you want to install it, or make changes to disks and partitions.

This option does not keep your files, settings, and programs.

Help me decide

**Upgrade has been disabled**

- To upgrade, start the installation from Windows.

Install Windows

Where do you want to install Windows?

Name	Total Size	Free Space	Type
Disk 0 Unallocated Space	16.0 GB	16.0 GB

## Installing Windows...

That's all the information we need right now. Your computer will restart several times during installation.

### Copying Windows files (0%) ..

- Expanding files
- Installing features
- Installing updates
- Completing installation

Set Up Windows

## Choose a user name and picture

Your user name and picture represent your user account. The account you create here is a computer administrator account. (You can create more accounts later in Control Panel.)

Type a user name (for example, John):

Type a password (recommended):

Choose a picture for your user account:

Set Up Windows

## Help protect Windows automatically

### Use recommended settings

Install important and recommended updates, help make Internet browsing safer, and check online for solutions to problems.

### Install important updates only

Only install security updates and other important updates for Windows.

### Ask me later

Until you decide, your computer might be vulnerable to security threats.

[Learn more about each option](#)

When you use recommended settings or install updates only, some information is sent to Microsoft. The information is not used to identify you or contact you. [Read our privacy statement](#)

Set Up Windows

## Review your time and date settings

Time zone:

(GMT-08:00) Pacific Time (US & Canada)

Automatically adjust clock for Daylight Saving Time

## Getting it done just got more fun

Time is precious. More than ever, you need a system that is simple, easy, natural, and enjoyable—so you can get things done and focus on what matters most in your life.
